

COMPACT.
ERGONOMIC.
EFFECTIVE.

Technical specifications

Theoretical performance	1380 m ² /h
Cleaning capacity with 1 tank	460 m ²
Theoretical capacity on 1 charge	1840 m ²
Battery run time	60 – 80 minutes
Battery cycle life	1500 – 2000 cycle
Battery type	2 x 8 Ah / 24 V Lithium
Working width	46 cm
Total power	700 W
Fresh water capacity	4 L
Waste water capacity	8 L
Brush pressure	22 kg
Brush speed (2 brushes)	200 rpm
Weight without battery / with battery	18 / 22 kg
Weight incl. battery & water	26 kg
Dimensions	120 cm x 50 cm x 38 cm
Packing dimensions	127 cm x 60 cm x 40 cm
Cardboard volume	0,30 m ³

SIMPLE & INTUITIVE

Ergonomic handle with easy-to-use controls.

BUILT TO LAST

Robust rotatorially moulded plastic for maximum durability.

POWERFUL CLEANING

Dual brushes and vacuum squeegee for dry, walkable floors.

The alternative for the traditional mop systems

The demand for compact ergonomic scrubber driers is increasing. As in many industries, manual work is being replaced by machine-based solutions. The Blancus machine is the alternative for the traditional mop systems. The operation of the machine is very simple and ergonomic, allowing everyone to use it. Two rotating brushes or pads scrub the floor and a powerful vacuum motor / squeegee leaves a dry and instantly walkable surface. The Blancus is largely made of rotatorially moulded plastic, making it sturdy and durable.

The machine is always delivered complete with: batteries, quick charger, brushes and pad holders. One battery pack delivers up to 80 minutes of work capacity, depending on the surface to be cleaned. With the simple plug and play system, the batteries can be changed effortlessly during the job.

✓ **In short: a very handy and compact scrubbing machine for the lighter and daily cleaning job!**
